सन नेपाल लाइफ इन्स्योरेन्स कं. लि. दोस्रो वार्षिक साधारण सभामा सञ्चालक समितिको तर्फबाट अध्यक्षद्वारा प्रस्तुत प्रतिवेदन

आदरणीय शेयर महानुभावहरु,

यस सन नेपाल लाइफ इन्स्योरेन्स कम्पनी लिमिटेडको दोस्रो साधारण सभामा उपस्थित हुनु भएका सम्पूर्ण शेयरधनी महानुभावहरु प्रति सञ्चालक सिमितिको तर्फबाट र मेरो व्यक्तिगत तर्फबाट हार्दिक स्वागत एवं अभिवादन गर्दछु। यस कम्पनी मिति २०६४/०६/२९ मा पिल्लिक लिमिटेड कम्पनीको रुपमा दर्ता भई बीमा सिमितिबाट मिति २०७४/४/१८ मा जीवन बीमा ब्यवसाय कारोवार गर्ने इजाजत प्राप्त गरी मिति २०७४/०६/०६ मा व्यवसाय प्रारम्भ गरेको छ। सदाभै यहाँहरुबाट सहयोग, सद्भाव एवम् स्भाव प्राप्त हुने अपेक्षा राख्दछौं।

अब म यहाँहरु समक्ष आर्थिक वर्ष २०७४/७५ को संस्थाको गतिविधिहरु, वासलात तथा नाफा नोक्सान हिसाब सिहतका अन्य वित्तीय विवरण प्रस्तुत गर्न चाहन्छ ।

१. कारोबारको समीक्षा

यस कम्पनीले आफ्नो व्यवसायिक कारोवार मिति २०७४/०६/०६ गते देखि प्रारम्भ गरी, १० महिनाको छोटो अवधिमा कुल रु २९ करोड ६९ लाख बीमा शुल्क आम्दानी गरेको छ। यस समीक्षा वर्ष कम्पनीको व्यवसायको वित्तीय सूचाङ्गहरु यसैसाथ संलग्न वित्तीय प्रतिवेदनमा उल्लेख गरिएको व्यहोरा जानकारी गराउँदछौं।

२. राष्ट्रिय तथा अन्तराष्ट्रिय परिस्थितिबाट कम्पनीको कारोवारमा परेको असरः

विश्वव्यापी राजनैतिक, आर्थिक तथा सामाजिक आरोह अवरोहबाट अन्य मुलकहरुमा जस्तै नेपालमा पिन प्रत्यक्ष तथा अप्रत्यक्ष प्रभाव पर्नु स्वभाविक हो । मुलुक भित्र वित्तीय क्षेत्रले सामना र्गनु परेको विभिन्न परिघटनाहरु, बैंकिङ्ग क्षेत्रमा देखिएको न्यून तरलताको स्थिति, र देशको अर्थ तन्त्रमा रहेको शिथिलता, विकास बजेट खर्च हुन नसक्ने अवस्था तथा उत्पादनशील क्षेत्रमा लगानी विस्तार हुनु नसकेको आदि कारणले दीर्घकालीन लगानीका अवसरहरुमा शिथिलता देखिएको छ । अर्थतन्त्रको सुचकहरु सकारात्मक नरहेको परिस्थितिमा जीवन बीमाको आवश्यकता र सोको विस्तार गर्ने कार्य पिन हाम्रो सामु चुनौती रहेको छ । प्रत्यक्ष वैदेशिक लगानी, उत्पादन शिलताको विकास विप्रेषण तथा समग्र अर्थतन्त्रको कारण जीवन बीमा क्षेत्रमा प्रत्यक्ष असर पर्ने अवस्था रहन्छ ।

३. प्रतिवेदन तयार भएको मितिसम्म चालु वर्षको उपलब्धि र भविष्यमा गर्नुपर्ने कुराको सम्बन्धमा सञ्चालक समितिको धारणाः

यस प्रतिवेदन तयार गर्दा बीमा समितिबाट जारी भएको निर्देशन अनुरुप जीवन बीमा व्यवसायको वित्तीय प्रतिवेदन एवम् नेपाल वित्तीय प्रतिवेदनमान (NFRS) बमोजिम प्रतिवेदन तयार गरिएको छ ।

माथि उल्लेखित सूचाङ्क बमोजिम कारोवार प्रारम्भ भएको छोटो अवधिमा यस कम्पनीको व्यवसायिक स्थिति एवम् वित्तीय अवस्था संतोषजनक रहेको व्यहोरा सहर्ष जानकारी गराउन चाहन्छौं।

यस कम्पनीले भविष्यमा गर्ने लक्ष्य लिएका काम कारोबारहरु देहाय बमोजिम रहेका छन् :

- (क) मानव संसाधन विकास : जीवन बीमा क्षेत्रमा दक्ष जनशक्तिको व्यवस्था गर्न कर्मचारीहरुलाई व्यवसायिक तालिम प्रदान गरी दक्ष बनाउने नीति अवलम्बन गरिएको छ । यस अन्तर्गत कर्मचारीहरुलाई जीवन बीमा व्यवसायसँग सम्बन्धित स्वदेशी तथा विदेशी तालिम प्रदायक संस्थाहरुसँगको सहकार्यमा बजार व्यवस्थापन, बिक्री कला, जोखिमाङ्गन लगायतका विभिन्न क्षेत्रसँग सम्बन्धित विषयहरुमा कार्यसम्पादन क्षमता एवम् दक्षता अभिवृद्धि गराउन विभिन्न किसिमका तालिमहरुमा सहभागी गराउँदै आएका छौं । यसै गरी जोखिमाङ्गन, कर्मचारी प्रशासन, वित्त व्यवस्थापन, नेतृत्व विकास, संस्थागत सुशासन तथा कम्पनीको व्यवसाय वृद्धि गर्न आवश्यक आन्तरिक तालिमहरु दिने कम निरन्तर भइरहेको छ । साथै, आगामी दिनमा समेत यस कार्यलाई निरन्तरता दिइनेछ । बीमा सेवा प्रभावकारी रुपमा विस्तार गर्नको लागि मानवीय संसाधनको विकास गर्दै दक्ष जनशक्ति मार्फत अघि बढ्ने सन्दर्भमा दृढ संकित्पत रहने नीति अवलम्बन गरिएको छ ।
- (ख) शाखा कार्यालय विस्तार : यस कम्पनीले मुलुकभर जीवन बीमा सेवाको पहुँच पुऱ्याउने उद्देश्य अनुरुप २० वटा शाखा कार्यालय र सो अर्न्तगत ५८ वटा उपशाखा कार्यालय स्थापना गरी स्थानीय स्तरबाटै जीवन बीमा सेवा प्रदान गरिएको छ । चालु आर्थिक वर्ष २०७५/७६ को अन्तसम्ममा कम्पनीले आफ्नो शाखा तथा उपशाखा सञ्जाललाई बढी भन्दा बढी स्थानमा पुऱ्याई भौगोलिक हिसाबले सबै स्थानहरुबाट प्रभावकारी जीवन बीमा सेवा प्रवाह गर्ने लक्ष्य लिएको छ ।
- (ग) बीमा अभिकर्ता तालिम एवं वृत्ति विकास : बीमा अभिकर्ताहरु जीवन बीमा सेवा प्रवाहका माध्यम मात्र नभई बीमा कम्पनीका व्यवसाय विस्तारका मेरुदण्ड हुन । बीमा अभिकर्तालाई दक्ष तथा सक्षम अभिकर्ता उत्पादन गर्ने कार्य निरन्तर अघि बढाई प्न जागरण तालिम प्रदान गर्ने नीति उवलम्बन गर्ने छ ।
- (घ) संस्थागत सुशासन : कुनै पिन संस्था सवल हुनुमा सो संस्थाको दैनिक क्रियाकलापमा संस्थागत सुशासनको अत्यन्त ठूलो भूमिका रहन्छ । हामी सञ्चालक सिमितिका सदस्यहरु यस प्रति सदा सजग र सचेत छौं । बीमा सिमितिबाट समयसमयमा जारी भएका निर्देशनहरु, बीमा ऐन, २०४९, बीमा नियमावली, २०४९, बीमकको संस्थागत सुशासन सम्बन्धी निर्देशिका, २०७४, कम्पनी ऐन, २०६३ तथा धितोपत्र ऐन, २०६३ मा भएका कानूनी व्यवस्थाहरुको पूर्णरुपमा पालना गर्न कम्पनी सदैव प्रतिबद्ध छ/रहनेछ ।

४. कम्पनीको औद्योगिक एवम व्यवसायिक सम्बन्ध :

कम्पनीले आफ्नो सेवा विस्तार गर्ने क्रममा कम्पनीका बीमित, अभिकर्ता, पुनर्बीमा कम्पनी, नियमन निकाय बीमा सिमिति, नेपाल धितोपत्र बोर्ड, कम्पनी रिजष्ट्रारको कार्यालय, नेपाल स्टक एक्स्चेन्ज लिमिटेड, विभिन्न बैंक तथा वित्तीय संस्थाहरु एवम कम्पनीको व्यवसायिक सम्बन्ध रहेका अन्य सरोकारवाला संघ संस्थाहरुसँग सुमधुर सम्बन्ध कायम राख्दै आएको छ । कम्पनीले आफ्नो सेवालाई नेपाल राज्यभर विस्तार गर्दै लिगरहेको परिप्रेक्ष्यमा समाजका सबै तहका औद्योगिक व्यवसायिहरुसँग सौहार्द्रपूर्ण औद्योगिक तथा व्यवसायिक सम्बन्ध कायम राख्नुका साथै भविष्यमा समेत सो सम्बन्ध सुमधुर रहनेछ भन्ने अपेक्षा गरेका छौं ।

५. सञ्चालक सिमतिमा भएको हेरफेर र सो को कारण

मिति २०७४/११/०४ गतेको साधारण सभाबाट निर्वाचित सञ्चालकहरु नै कायम रहेको हुदाँ उक्त सञ्चालक समिति हेरफेर नभएको व्यहोरा जानकारी गराउँदछु ।

६. कारोबारलाई असर पार्ने मुख्य कुराहरु :

जीवन बीमा कम्पनीमा बीमितहरुको जोखिम व्यहोर्नुका साथै बीमितहरुबाट प्राप्त हुने बीमा शुल्क रकमलाई उच्च प्रतिफल प्राप्त हुने क्षेत्रमा लगानी गरी बीमितहरुलाई उच्च प्रतिफल दिने लक्ष्य लिइएको हुन्छ । सोको लागि बैंकिङ्क क्षेत्रको तरलता स्थितिमा समयसमयमा देखिएको अस्थिरताले गर्दा बीमा कम्पनीले प्राप्त गर्ने प्रतिफल (ब्याज) मा स्थिरता नहुने, देशको राजनैतिक अवस्था, बजार मूल्य वृद्धि, औद्योगिक विकासमा कमी, निश्चित लगानी, जीवन बीमा कम्पनीहरुको संख्यामा वृद्धि भई अस्वस्थ प्रतिस्पर्धा तथा नियमनकारी निकायले समयसमयमा जारी गर्ने निर्देशनहरुले कम्पनीको कारोबारलाई सकारात्मक नकारात्मक दुबै खाले असर पार्न सक्ने देखिन्छ ।

The Board of Directors is responsible for preparation and presentation of the Financial Statements of the company as per the provisions of the Companies Act 2063, the Nepal Financial Reporting Standards (NFRS), and Insurance Act 2049. The responsibility of the Directors in relation to the financial statements is set out in detail in the Statement of Directors' Responsibility report in the annual report.

1.3 Statement Of Compliance

The Financial Statements have been prepared in accordance Nepal Financial Reporting Standards issued by the Institute of Chartered Accountants of Nepal issued by the Accounting Standards Board of Nepal; the applicable laws; Insurance Act, 2049; Insurance Regulation, 2049; Company Act, 2063 and Directives on Preparation of Financial Statements issued by Insurance Board, 2065.

These Financial Statements include the following components:

- A Statement of Financial Position providing information on the financial position of the company as at the year end;
- An Statement of Profit or Loss and Other Comprehensive Income providing information on the financial performance of the company for the year under review;
- A Statement of Cash Flows providing information to the users, on the ability of the company to generate cash and cash equivalents and the needs of the entity to utilize those cash flows;
- A Statement of Changes in Equity depicting all changes in shareholders' funds during the year under review of the company;
- Notes to the Financial Statements comprising Accounting Policies and Other Explanatory Information.

1.4 Reporting Period and Approval Of Financial Statements

The company follows the Nepalese Financial Year based on Nepalese Calendar. The company has prepared the Financial Statements that comply with NFRS applicable for the period ending on 16th July 2018 with comparative period data as at and for the year ending 15 July 2017 as described in its accounting policies. Since this is the first NFRS based Financial Statement the Statement of Financial Position has been prepared also for the transition date i.e. As on 16 July 2016. The accompanied Financial Statements have been adopted by the Board of Directors on its board meeting held on 30-06-2018 and have been recommended for approval by shareholders in the 2nd Annual General Meeting.

2. BASIS OF PREPARATION

2.1 Basis of Presentation of Financial Statements

The Financial Statements for the year ended 16th July 2018, has been prepared in accordance with Nepal Financial Reporting Standards (NFRS). Where NFRS does not contain clear guidance governing the accounting treatment of certain transactions, including those that are specific to insurance and reinsurance products, NFRS permits reference to another comprehensive body of accounting principles that uses a similar conceptual framework. The company's accounting policies for insurance and reinsurance contracts are therefore based on those developed by the Insurance Board before the adoption of NFRS 4 in areas where NFRS 4 did not include specific requirements. Before the adoption of NFRS 4, the company typically applied Generally Accepted Accounting Principles pronouncements issued by the Institution of Chartered Accountants of Nepal on insurance and reinsurance contracts. Any changes to such pronouncements subsequent to this adoption are not reflected in the company's accounting policies.

These financial statements have been prepared on an accrual basis of accounting in accordance of NFRS read along with the approved carve-outs. Historical cost convention was used for financial instruments measurement and recognition except otherwise required by NFRS. Where, other method(s), other than historical costs, such as fair value has been applied, these have been disclosed in accordance with the applicable financial reporting framework.

2.2 Functional And Presentation Currency

Items included in the Financial Statements of the company are measured using the currency of the primary economic environment in which the company operates (the Functional Currency). These Financial Statements are presented in Nepalese Rupees(NPR), the company's Functional and Presentation Currency.

There was no change in the company's Presentation and Functional Currency during the year under review.

2.3 Materiality and Aggregation

Each item which is similar in nature is presented separately if material. Items of dissimilar nature or function are presented separately unless they are immaterial as permitted by the Nepal Accounting Standard NAS 1 on 'Presentation of Financial Statements'.

2.4 Comparative Information

The presentation and classification of assets and liabilities in the Financial Statements of the previous year have been amended, where relevant for better presentation and to be comparable with those of the current year.

2.5 Significant Accounting Convention, Judgments, Estimates And Assumptions

The Financial Statements of the Insurer have been prepared on accrual basis of accounting except the cash flow information which is prepared, on a cash basis, using indirect method. The Financial Statements have been prepared on a going concern basis.

The Insurer is required to apply the accounting policies that are most appropriate for the circumstance and operating environment. NFRS requires the company to exercise judgment in making choice of specific accounting policies and accounting estimates. The insurer, while complying with the reporting standards, makes critical accounting judgment as having potentially material impact on the Financial Statements. Description of such estimates and significant accounting policies has been given in the relevant sections wherever they have been applied. These policies are consistently applied to all the years presented, except for the changes in accounting policies disclosed specifically. The underlying assumption made while making accounting estimates are periodically reviewed and such revision are recognized in the period in which the estimates is revised and are applied prospectively.

In preparation of these financial statements, management has made judgments, estimates and assumptions that affect the application of the Insurer's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual result may differ from these estimates. Disclosures of the accounting estimate have been included in the relevant section of the notes whenever the estimates have been applied along with the nature and effect of changes of accounting estimates, if any.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included as follows;

Critical Accounting Estimates / Judgments

- a. Valuation of insurance contract liabilities / Life Insurance Fund
- b. Measurement of defined benefit obligations: Key actuarial assumptions
- c. Impairment test: Key assumptions underlying recoverable amounts
- d. Recognition and measurement of provisions and contingencies: Key assumptions about the likelihood and magnitude of an outflow of resources
- e. Recognition of deferred tax assets: availability of future taxable profit against which tax losses
- f. Determination of the fair value of financial instruments
- g. Liability Adequacy Test

2.6 Presentations

The Financial Statements have been presented in the nearest Nepalese Rupees (NPR). For presentation of the Statement of Financial Position, assets and liabilities have been bifurcated into current and non-current, by their respective maturities and are disclosed in the notes based on cost benefit analysis for such bifurcation. All assets apart from Property, Plant and Equipment, Intangible Assets and Deferred Taxes Assets are taken as current assets unless specific additional disclosures is made in the notes for current and non-current distinction. All liabilities apart from Provision, Insurance Contract Liabilities are taken as current liabilities unless specific additional disclosures is made in the notes for current and non-current distinction.

The Statement of Profit or Loss has been prepared using classification "by nature" method. The cash flow from operation within the Statement of Cash Flows have been prepared using the Direct Method.

2.7 Change in accounting policies

The Insurer has applied amendments to standards for the first time during the year ended 16 July 2018. The insurer has prepared the statement of financial position for transition date by reclassifying item from previous GAAP to NFRS as required by NFRS and applying NFRS in measurement of recognized assets and liabilities.

2.8 Reporting Pronouncements

The Insurer has, for the preparation of financial statements, adopted the NFRS pronounced by Accounting Standard Board (ASB) as effective on September 13, 2013. The NFRS confirm, in all material respect, to International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

However the Institution of Chartered Accountants of Nepal (ICAN) vide its notice dated 20 September 2018 has resolved that Carve-outs in NFRS with Alternative Treatment and effective period shall be provided to the Insurer by the Regulatory Body on the recommendation of Accounting Standard Board (ASB). Details of carve out provided are as follows:

NAS 17: Lease

In para 33, Lease payment under an operating lease shall be recognized as an expenses on a straight line basis over the lease term unless either:

- a. Another systematic basis is more representative of the time pattern of the user's benefit even if the payments to the lessors are not on that basis ,or
- b. The payments to the lessors are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. If payments to the lessor vary because of factors other than general inflation, then this condition is not met.

NAS 34 Interim Financial Reporting

In para 2, if an entity's interim financial report is described as complying with NFRSs, it must comply with all of the requirements of the standards. Para 19 requires certain disclosures in that regard. However, an entity shall not require to restate its corresponding previous interim period balance if it is impracticable to restate.

2.9 Standards Issued But Not Yet Effective

As per the guidelines of the ICAN, When International Accounting Standard Board revises, amends or

withdraws International Accounting Standards, IFRSs, IFRIC or SIC, such revisions, amendments and withdrawals shall accordingly be treated as effected with immediate revision, amendment and withdrawal in NFRS by ASB as well, to the extent not in conflict with existing National laws. The standards that are issued, but not yet effective, up to the date of issuance of the Insurer's Financial Statements are disclosed below. The insurer intends to adopt these standards, if applicable, when they become effective.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 was issued in May 2014 and establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The new revenue standard will supersede all current revenue recognition requirements under IFRS. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after January 1, 2018, when the IASB finalizes their amendments to defer the effective date of IFRS 15 by one year. These amendments are not expected to have any impact on the Insurer.

IFRS 16 Leases

Under the new standard, the accounting treatment of leases by lessees will change fundamentally because it eliminates the current dual accounting model for lessees, which distinguishes between onbalance sheet finance leases and off-balance sheet operating leases. Instead, there is a single, on-balance sheet accounting model that is similar to current finance lease accounting. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with early application permitted if IFRS 15 is also adopted. The Insurer plans to adopt the new standard on the required effective date and will further investigate the implications in the near future.

IFRS 17 Insurance Contract

IFRS 17 established the principles for the recognition, measurement, presentation and disclosures of insurance contracts within the scope of the standard. The objective of the standard is to ensure that an entity provides relevant information that faithfully represents those contracts. IFRS 17 was issued in May 2017 and applies to annual reporting periods beginning on or after 1 January 2021. IFRS 17 provides comprehensive guidance on accounting for insurance contracts and investment contracts with discretionary participation features. For short-term life insurance contracts IFRS 17 introduces mandatory discounting of loss reserves as well as a risk adjustment for non-financial risk, for which confidence level equivalent disclosure will be required. Further, IFRS 17 will change the presentation of insurance contract revenue, as gross written premium will no longer be presented in profit or loss. Due to the strong interaction between underlying assets held and the measurement of direct participating insurance contracts, the Insurer decided to use the option to defer the full implementation of IFRS 9 until IFRS 17 becomes effective on January 1, 2021.

IFRS 17 is expected to have a significant impact on accounting for life insurance contracts as well as on the presentation of insurance contract revenue in the financial statements.

IFRS 9- Financial Instruments

IFRS 9 established the principles for the recognition, measurement and classification of financial instruments within the scope of the standard. NFRS 9 has been issued but is not effective until further notified. However, the insurer has elected to apply the requirement of NFRS 9 for the classification of Financial Instruments only.

2.10 Limitation of NFRS Implementation

If the information is not available and the cost of develop would exceed the benefit derived, such exception to NFRS Implementation has been noted and disclosed in respective section.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of Measurement

The Financial Statements have been prepared on the historical cost basis except for certain properties and financial instruments that are measured at revalued amounts or fair value at the end of the reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The following balances are mixed in nature (including both current and non-current portions): placement with bank and financial institutions, staff loans, agent loans, reinsurers' share of reserves for insurance contracts, deferred acquisition costs, other assets, liabilities for investment contracts, reserves for losses and loss adjustment expenses, future life policyholder benefits, policyholder contractual deposits and other funds and other liabilities.

3.2 Going Concern

The Board of Directors have made an assessment of Entity's ability to continue as a going concern and satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, Board is not aware of any material uncertainties that may cast significant doubt upon Entity's ability to continue as a going concern and they do not intend either to liquidate or to cease operations of it. Therefore, the Financial Statements continue to be prepared on the going concern basis.

Summary of Significant Accounting Policies

Summary of significant accounting policies have been disclosed along with the relevant individual notes in the subsequent pages. The accounting policies presented with each note have been applied consistently by the insurer.

3.3 Property, Plant and Equipment Recognition and Measurement

The insurer applies the requirements of the Nepal Accounting Standard - NAS 16 on 'Property, Plant and Equipment' in accounting for its owned assets which are held and used in the provision of services or for administrative purposes and are expected to be used for more than one year.

Initial Costs

An item of property, plant and equipment that qualifies for recognition as an asset is initially measured at its cost. Except for land and buildings, the company applies the cost model for all property, plant and equipment and records at cost of purchase together with any incidental expenses thereon, less accumulated depreciation and any accumulated impairment losses. The Insurer as being not VAT registered entity booked VAT paid of property, plant and equipment as a cost of Property, Plant and Equipment.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the following:

- The cost of materials and direct labor;
- Any other costs directly attributable to bringing the assets to a working condition for their intended use;
- When the company has an obligation to remove the asset or restore the site, an estimate of the costs of dismantling and removing the items and restoring the site on which they are located; and
- Capitalized borrowing costs.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Subsequent Costs

The cost of replacing a component of an item of property, plant or equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Insurer and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of property and equipment are recognized in the statement of profit or loss as incurred.

Similarly, repairs and maintenance are charged to the Statement of profit or loss during the financial period in which they are incurred. The cost of major renovations is included in the carrying amount of the assets when it is probable that future economic benefits in excess of the most recently assessed standard of performance of the existing assets will flow to the Insurer and the renovation replaces an identifiable part of the asset. Major renovations are depreciated during the remaining useful life of the related asset.

Depreciations

Depreciation is recognized in the Statement of profit or loss on a straight - line basis over the estimated useful lives of each part of an item of property, plant and equipment since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Land is not depreciated. Company has made change in accounting estimate in respect of its deprecation method from Written Down Value Method to Straight Line Method in comparison to old GAAP for the transition period.

The estimated useful lives for the current and comparative periods are as follows:

Asset Class	Basis
Office furniture	5 years
Furniture and fittings	5 years
Computer equipment	5 years
Motor vehicles	5 years

Impairment of property plant and equipment

At the end of each reporting period, the Company reviews the carrying amounts of its property, plant and equipment to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Recoverable amount is the higher of fair value less costs to sell and value in use. Value in use is usually determined on the basis of discounted estimated future cash flows. This involves management estimates on anticipated commodity prices, market demand and supply, economic and regulatory environment, discount rates and other factors. Any subsequent changes to cash flow due to changes in the above-mentioned factors could impact the carrying value of assets.

De-recognition

The carrying amount of property, plant and equipment shall be de-recognized:

- On disposal, or
- When no future economic benefits are expected from its use or disposal.

Any gain or loss on disposal of an item of property, plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognized in 'other income' in the Statement of profit or loss.

3.4 Intangible Assets

Initial Recognition

An intangible asset is recognized if it is probable that future economic benefits associated with the asset will flow to the Insurer and the cost of the asset can be measured reliably in accordance with the Nepal Accounting Standard - NAS 38 on 'Intangible Assets'.

Acquired intangible assets are capitalized on the basis of the costs incurred to acquire and bring to use as intended by management. These costs are amortized over its estimated useful life determined by the management. Following initial recognition, these assets are stated in the Statement of Financial Position at cost, less accumulated amortization and accumulated impairment losses.

The intangible asset of the company as at end of fiscal year is computer software and branding. The computer software are capitalized on the basis of the costs incurred and bring to use the specific software. Costs associated with the development of software are capitalized where it is probable that it will generate future economic benefits in excess of its cost. Computer software costs are amortized on the basis of the expected useful life. Costs associated with maintaining software are recognized as an expenses as incurred.

Amortization

The intangible assets are amortized over the useful life of intangible assets which the Insurer has considered as 3 years for software and 5 years for other intangible assets. The amortized cost on a straight-line basis is charged to the Statement of profit or loss over its estimated useful life, from the

date on which it is available for use. The estimated useful life of software for the current and comparative periods is five years.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Assessment of Impairment of Intangible Assets

At each reporting date, these assets are assessed for indicators of impairment. In the event that an asset's carrying amount is determined to be greater than its recoverable amount, the asset is written down immediately.

The management has assessed the potential impairment loss of intangible assets as at 16th July 2018. Based on the assessment, no impairment provision is required to be made in the financial statements as at the reporting date in respect of intangible assets.

Capitalization of Borrowing Costs

There were no capitalized borrowing costs of the acquisition of intangible assets during the Year.

De-recognition

The carrying amount of intangible assets shall be de-recognized:

- On disposal, or
- When no future economic benefits are expected from its use or disposal.

Any gain or loss on disposal of an item of intangible asset (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognized in 'other income' in the Statement of profit or loss.

3.5 Financial Assets & Financial Liabilities

Financial asset is a financial instrument. As per NFRS 9 "Financial Instrument", Financial Instrument is any contract that gives rise to both a financial instrument of one enterprise and a financial liability or equity instrument of another enterprise.

3.5.1 Classification

Financial Assets

The company classifies the financial assets under following three categories based on NFRS 9:

Financial Assets at amortized cost

The financial assets is categorized as financial assets at amortized cost when the assets are held under the business model whose objective is to collect the contractual cash flow and the contractual cash flow categorized solely payment of principal and interest on the principal amount outstanding.

Financial Assets at fair value through profit or loss

The financial assets is categorized as financial assets at fair value through profit or loss when the financial assets do not meet the amortized cost criteria and when the irrevocable designation at the initial recognition to recognized financial assets through profit or loss has been made.

Financial Assets at fair value through other comprehensive income

The financial assets i.e. investment in equity instruments can be categorized as financial assets at fair value through other comprehensive income when the financial assets do not meet the amortized cost criteria and when the irrevocable designation at the initial recognition is made to recognized financial assets through other comprehensive income.

3.5.2 Initial recognition and measurement

The Insurer initially recognizes a financial asset in its Statement of Financial Position when, and only when, it becomes party to the contractual provisions of the instruments. The transaction costs that are directly attributable to the acquisition or issues of financial instruments(other than financial instruments through profit or loss) are added or deducted from the fair value of the financial assets, as appropriate, on the initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognized immediately in Statement of Profit or Loss. The company thus has initially recognized interest receivable, time deposit with bank and financial institutions etc. on the date when they are originated i.e. date when the Insurer has become party to the contractual provision of the instruments.

Effective Interest Method

The effective interest method is a method of calculating the amortized cost of a debt instruments and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the carrying amount on initial recognition.

Income is recognized on the effective interest basis for debt instruments other than those financial assets classified as at Fair value through profit and loss.

3.5.3 Subsequent Measurement

Financial Assets classified at amortized cost on initial recognition is subsequently measured at amortized cost using effective interest method.

Financial Assets classified at fair value are subsequently measured at fair value. The subsequent changes in fair value of financial assets at fair value through profit or loss are recognized in Statement of Profit or Loss whereas of financial assets at fair value through other comprehensive income are recognized in Other Comprehensive Income.

3.5.4 De-recognition

Financial Assets are derecognized when the right to receive cash flows from the assets have expired or where the company has transferred substantially all risks and rewards of ownership. If substantially all the risks and rewards have been retained nor transferred and the Insurer has retained control, the assets continue to be recognized to the extent of the Insurer's continuing involvement.

Financial Liabilities

The Insurer classifies the financial liabilities as follows:

Financial Liabilities at fair value through profit or loss

Financial Liabilities are classified as fair value through profit or loss if they are held for trading or are designated at fair value through Profit or Loss. Upon initial recognition, transaction cost are directly attributable to the acquisition are recognized in Statement of Profit or Loss as incurred. Subsequent changes in fair value is recognized at Statement of Profit or Loss.

Financial Liabilities measured at amortized cost

All financial liabilities other than measured at fair value through profit or loss are classified as subsequently measured at amortized cost using effective interest method.

3.5.5 Initial recognition and measurement

The Insurer initially recognizes a financial liability in its Statement of Financial Position when, and only when, it becomes party to the contractual provisions of the instruments. The transaction costs that are directly attributable to the acquisition or issues of financial instruments(other than financial instruments through profit or loss) are added or deducted from the fair value of the financial liabilities, as appropriate, on the initial recognition. Transaction costs directly attributable to the acquisition of financial liabilities at fair value through profit or loss are recognized immediately in Statement of Profit or Loss. The Insurer thus has initially recognized interest receivable, time deposit with bank and financial institutions etc. on the date when they are originated i.e. date when the Insurer has become party to the contractual provision of the instruments.

3.5.6 Subsequent Measurement

Financial Liability classified at amortized cost on initial recognition is subsequently measured at amortized cost using effective interest method.

Financial Liabilities classified at fair value are subsequently measured at fair value. The subsequent changes in fair value of financial liabilities at fair value through profit or loss are recognized in Statement of Profit or Loss.

3.5.7 De-recognition

Financial Liabilities are derecognized when they are extinguished. A financial liability is extinguished when the obligation is discharged, cancelled or expired.

3.5.8 Determination of Fair Value

Assets and liabilities are carried at fair value or for which fair values are disclosed have been classified into three levels according to the observability of the significant inputs used to determine the fair values as per NFRS 13 Fair Value Measurement. Changes in the observability of significant valuation inputs during the reporting period may result in a transfer of assets and liabilities within the fair value hierarchy. The Insurer recognizes transfers between levels of the fair value hierarchy when there is a significant change in either its principal market or the level of observability of the inputs to the valuation techniques as at the end of the reporting period.

The Insurer uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) price in active markets for identical assets or liabilities

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

3.5.9 Impairment

At each reporting date, the Insurer shall assesses whether there is objective evidence that a financial assets or group of financial assets not carried at fair value through profit or loss are impaired. A financial asset or a group of financial assets is impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the assets and that the loss event has an impact on the future cash flow of the asset(s) that can be estimated reliably.

Objective evidence that financial assets are impaired can include:

- 4. Counterparty files for bankruptcy and this would avoid or delay discharge of its obligation,
- 5. The disappearance of an active market for a security,
- 6. Observable data relating to a group of assets such as adverse changes in the payment status of debtors or issuers in the group or economic conditions that correlate with defaults in the group,
- 7. Indication that the industry in which the debtors has operated has been facing negative conditions affecting borrower adversely and borrower has not been able to adopt the mitigating actions,
- 8. Debtors or key management personnel of the debtors are out of contract and cannot be located.
- 9. The Insurer has initiated the legal actions of recovery in respect of a credit obligation of the counterpart,
- 10. In case of investment in equity security, a significant or prolonged decline in its fair value below its cost,
- 11. Other.

3.5.10 Impairment of financial assets measured at amortized cost

The Insurer considers evidence of impairment for financial assets and investment securities measured at amortized cost at both specific asset and collective level. The insurer first assesses individually whether objective evidence of impairment exist for financial assets that are individually significant and that are not individually significant are assessed on collectively.

If there is objective evidence on that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows. The carrying amount of the assets is reduced through the use of allowance account and the amount of loss is recognized in Statement of Profit or Loss

All individually significant financial assets and investment securities measured at amortized cost found not to be specifically impaired and those that are not individually significant are collectively assessed for impairment by grouping together with similar risk characteristics.

Impairment losses on assets measured at amortized costs are calculated as difference between the carrying amount and the present value of estimated future cash flows discounted at the asset's original effective rate of interest.

If in the subsequent year, the amount of estimated impairment loss increase or decrease because of an event occurring after the impairment was recognized, the previously recognized impairment losses is increased or decreased by adjusting the allowance account. If a write off is later recovered, the recovery is recognized in the "Other Operating Income".

3.5.11 Offsetting of Financial Assets and Financial Liabilities

Financial Assets and liabilities are offset and the net amount presented in the Statement of Financial Position when, only when, the Insurer has a legal right to set off the amounts and it intends either to settle them on a net basis or to realize the assets and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under NFRS, or for gains and losses arising from a group of similar transactions such as in the Insurer's trading activity.

3.6 Income Tax

Income Tax comprises of current and deferred tax. Current and deferred tax is recognized in profit or loss except that they relate to items recognized directly in equity or in other comprehensive income.

Current Income Tax

Income Tax Expenses comprises current tax provision, the net change in the deferred tax assets or liability in the year and under/over provision made in the previous year. Current tax provision means the amount of tax for the period determined in accordance with the prevailing Income Tax Act 2058 and the rules framed thereunder. Income tax rate applicable to life insurance company is 25%. Current tax is based on the taxable profit for the year.

Current Tax Assets/Liability

The amount of current tax assets/lability has been booked by netting off advance income tax with the provision for taxation framed.

Deferred Tax

Deferred Tax Assets and liabilities are recognized for the future tax consequences of timing difference between the carrying values of assets and liabilities and their respective tax bases, and operating loss carry forward. Deferred tax assets and liabilities are measured using the enacted or substantively enacted tax rates at the reporting date. Deferred Tax Assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future. Deferred tax assets are reviewed at each balance sheet date and appropriately adjusted to reflect the amount that is reasonably/virtually certain to be realized.

3.7 Cash and Cash Equivalents

This includes the cash on hand, cash on vault, balance with other banks and financial institutions which are used by the Insurer for management of its short-term commitment. The Insurer has recognized cash equivalents as short-term, highly liquid investments that are readily convertible to cash without the significant risk of changes in value.

Such cash and cash equivalent are carried at their carrying amount. These assets have been classified as financial assets and subsequently measure at amortized costs.

3.8 Share Capital

Financial Instruments issued are classified as equity where there is no contractual obligation to transfer cash, other financial assets or issue available number of own equity instruments. Incremental costs directly attributable to the issue of new shares are shown in equity as deduction net of taxes from the proceeds. Dividend on ordinary shares are recognized in equity in the period in which they are declared. The Insurer has issued ordinary shares that are classified as equity instruments. Incremental external costs that are directly attributable to the issue of these shares are recognized in equity, net of tax.

3.9 Share Premium

Share premium is the amount received by a Insurer over and above the face value of its shares. The Insurer has issued the share at the face value hence there is no share premium till the end of fiscal year.

3.10 Reserves

The reserves include the regulatory and the free reserves.

Catastrophic Reserves

There is a regulatory requirement to set aside 10% of the profit available for distribution to the catastrophic reserve. The reserve is the accumulation of setting aside profit over the years. As per the Circular No. 61 dated 2075.09.15 Point No. 2(Ja) from Beema Samiti regarding the NFRS implementation, the life insurance Insurer shall maintain any regulatory reserve under NFRS based financial statement not being lower than the amount that has been maintained in the financial statement prepared under directive of Beema Samiti. The catastrophic reserves has been set as equal to the amount that has been created under financial statement prepared under the directives of Beema Samiti as NFRS profit is lower than the profit under financial statement prepared under directive of Beema Samiti.

Regulatory Reserve

As per the Circular No. 61 dated 2075.09.15 Point No. 2(Kha) from Beema Samiti regarding the NFRS implementation, if the profit under NFRS based financial statements is higher than the profit under financial statements prepared under Beema Samiti directives for the comparative period(FY 2016/17) and the reporting period (FY 2017/18), then excess profit after adjusting into the retained earning needs to present separately as regulatory reserve. The profit under NFRS based financial statement for the reporting period (FY 2017/18) and comparative period(FY 2016/17) is lower than that of financial statements prepared under Beema Samiti directives, hence excess profit has been shown as regulatory reserve.

Deferred Tax Reserve

As per the Circular No. 61 dated 2075.09.15 Point No. 2(Ja) from Beema Samiti regarding the NFRS implementation, the life insurance Insurer shall maintain any regulatory reserve under NFRS based financial statement not being lower than the amount that has been maintained in the financial statement prepared under directive of Beema Samiti. The amount of deferred tax assets shall be booked as deferred tax reserve as no distribution can be made from such amount. The deferred tax assets under NFRS is greater than that is required under financial statement prepared under directive of Beema Samiti hence deferred tax reserve has been created for all such deferred tax assets under NFRS by deducting from retained earnings.

Fair Value Reserve

As per the Circular No. 61 dated 2075.09.15 from Beema Samiti regarding the NFRS implementation, the life insurance company has maintain fair value reserve having 10% of the surplus arising on other comprehensive income under fair value reserve head.

Retained Earnings

This includes the free accumulated profit available for distribution to shareholders.

3.11 Insurance Contract Liabilities

Insurance contracts are defined as those containing significant insurance risk if, and only if, an insured event could cause an insurer to pay significant additional benefits in any scenario, excluding scenarios that lack commercial substance, at the inception of the contract. Such contracts remain insurance contracts until all rights and obligations are extinguished or expires. Contracts can be reclassified to insurance contracts after inception if insurance risk becomes significant.

Insurance contract liabilities are recognized when contracts are entered into and premiums are charged. These liabilities are measured using the Gross Premium Method, which is also prescribed by the Beema Samiti. Under Gross premium method, future cash flows from premium receivables, commission payable, expected future expenses and all types of benefits payouts are discounted to present value. Insurance contract liabilities includes the followings:

1. Life Insurance Fund

There is a regulatory requirement to create life insurance fund on the basis of the amount determined by the actuary. As per the Circular No. 61 dated 2075.09.15 Point No. 2(Cha) from Beema Samiti regarding the NFRS implementation, the life Insurer shall maintain life insurance fund under NFRS based financial statement not lower the amount that has been maintained in

the financial statement prepared under directive of Beema Samiti. Since profit under NFRS based financial statement before transfer to life insurance fund is lower than the profit under financial statement prepared under Beema Samiti directives before transfer to life insurance fund, the amount equal to the life insurance fund maintained in the financial statement prepared under Beema Samiti directives has been charged to life insurance fund.

2. Unexpired Risk Reserve

As per the financial statement related directive 2066 of Beema Samiti, Clause No.19.3, in case of non-valuation of liabilities from actuary, the unexpired risk reserve, in respect of policy having single premium and for which there is no compulsion to make payment after the expiry of policy term, the unexpired risk reserve shall be created on the proportionate basis of the term of policy. The circular No. 61 dated 2075.09.15 Point No. 2(Gha) from Beema Samiti regarding the NFRS implementation, the unexpired risk reserve under NFRS based financial statement shall be prepared based on the guidelines of financial statement related directive 2066 of Beema Samiti hence the amount of unexpired risk reserve under NFRS based financial statement is equal to the amount that has been created under financial statement prepared under Beema Samiti directives.

3. Statutory Provision for claim payable

As per the Insurance Regulation, 2049, Rule 15, an amount of one hundred fifteen percent of the remaining amounts of the payment against the claim made by the insurer before the expiry of each fiscal year shall be created as provision for claims.

The circular No. 61 dated 2075.09.15 Point No. 2(Cha) from Beema Samiti regarding the NFRS implementation, the life insurance company shall create the statutory provision for claim of the amount not lower than the amount that has been mentioned in the Insurance Regulation and the Directives relating to financial statement of life insurance company. Hence amount equal to that has been maintained as provision for claim in the Financial Statement prepared under Beema Samiti directives has been maintained as statutory provision for claim under NFRS based financial statement.

4. Fair value reserve

As per the Circular No. 61 dated 2075.09.15 from Beema Samiti regarding the NFRS implementation, the life insurance company shall maintain fair value reserve having 90% of the surplus arising on other comprehensive income and accordingly shown under Insurance Contract liabilities.

3.12 Receivables and payables related to insurance contracts

Receivables and payables are recognized when due. These include amounts due to and from agents, brokers and insurance policyholders. If there is objective evidence that the insurance receivable is impaired, the Insurer reduces the carrying amount of the insurance receivables accordingly and recognized that impairment loss in profit or loss. The Insurer gathers the objective evidence that an insurance receivables is impaired using the same process adopted for loans and receivables. Provision for outstanding claims are recognized based on the estimated cost of all claims incurred but not settled at the statement of financial position date.

3.13 Provisions

The Insurer recognizes a provision if, as a result of past event, the Insurer has a present constructive or legal obligation that can be reliably measured and it is probable that an outflow of economic benefit will be required to settle the obligation.

A disclosure for contingent liability is made when there is a possible obligation or a present obligation that may but probable will not require on outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provision are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, then the provision is reversed.

The provision comprises of the provision for gratuity and the leave encashment.

3.14 Revenue

Revenue is the gross inflow of the economic benefits during the period arising from the course of the ordinary activities of an entity when those inflows result in increase in equity, other than increase relating to contribution from equity participants. Revenue in recognized to the extent it is probable that the economic benefits will flow to the Insurer and the revenue can be measured reliably. Revenue is not recognized during the period in which its recoverability of income is not probable.

Gross insurance premiums

'Insurance contracts' or 'Investment contracts' depending in the level of insurance risk transferred. Insurance contracts are those contracts when the Insurer (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders, if a specified uncertain future event (the insured event) adversely affects the policyholders.

Generally, the Insurer determines whether it has significant insurance risk, by comparing the benefits paid with benefits payable, if the insured event did not occur. Insurance contracts can also transfer financial risk.

Products sold by the Insurer includes protection, participatory and non-participatory contracts.

Gross insurance written premiums comprise the total premiums receivable for the period of cover provided by contracts entered into during the accounting period and are recognized on the date on which the policy commences. Premiums include any adjustments arising in the accounting period for premiums receivable in respect of business written in prior accounting periods.

Fees and commission income

Commission income from Reinsurer are calculated based on gross premiums reinsured. Commission income are adjusted so that they are recognized over the period covered by the related policies taking into consideration the exposure period which they relate. Commission income from Reinsurer has been shown at gross figure and the unearned commission income from Reinsurer has been shown as other liabilities.

The fees charged to insured for late payment of premium is calculated for daily basis by which the period for payment has been late.

Commission income from Reinsurer are calculated based on gross premiums reinsured.

Investment income

Investment Income comprises the interest income and other returns on funds invested against investment according to the Beema Samiti (Insurance Board) guidelines. Interest income is recognized as it accrues in profit or loss using the effective interest method.

Interest income on loans

Interest income on loans comprises interest income on agent loan, staff loan as well as interest income on placement with bank and financial institutions and bank balance.

Interest income is recognized as it accrues in profit or loss using the effective interest method.

3.15 Claims and benefits paid

Benefits are recorded as an expenses when they are incurred. Claims arising on maturing policies are recognized when the claim becomes due for payment. Death claims are accounted for on notification. Surrenders are accounted for on payments.

A liability for contractual benefits that are expected to be incurred in the future is recorded when the premium are recognized. The liability is determined as the sum of the expected discounted value of the benefits payments and the future administration expenses that are directly related to the contracts, less the expected discounted value of the theoretical premiums that would be required to meet the benefits and administration expenses based on the valuation assumptions used(the valuation premiums). The liability based on assumption as to mortality persistence maintenance expenses and investment income that are established at the time the contract is issued. A margin for adverse deviations is included in the assumptions/

Where insurance contracts have a single premium or a limited number of premium payments due over a significantly shorter period than the period during which benefits are provided, the entire premium

is recognized on cash basis. The excess of the premiums payable over the valuation premiums is deferred and recognized as income in line with the decreased of unexpired insurance risk of the contracts in force or, for annuities in force, in line with the decrease of the amount of future benefits expected to be paid. The liabilities are recalculated at each reporting date using the assumption established at inception of the contacts.

3.16 Employee Benefits/Personnel Expenses

The employee benefit is categorized under four head as per NAS 19:

1. Short-term benefits

Short-term employee benefits are those which are expected to be settled within twelve months after the end of the period in which the employees render the related services (other than termination benefits.)

2. Termination benefits

These are provided in exchange for a termination of employment. This may result from the entity's decision to terminate employment before the normal retirement date or an employee's decision to accept the benefits in exchange for the termination.

3. Post-employment benefits

Those are benefits that are payable after the completion of employment (other than the termination benefits)

4. Other long-term employees benefits

The employee benefits other than short-term, post-employment and termination benefits.

The personnel Expenses of the Insurer includes:

- Short term employee benefits which includes salary, allowances, non-monetary benefits etc.
- Post- employment benefits that is payable after the completion of employment which can be either Defined Contribution Plan or Defined Benefit Plan.

Short term Employment benefits

Short term employment benefits are recognized over the period in which the employees provide the related services.

Post-employment benefits

A. Defined Contribution Plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and has no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in the income statement in the periods during which related services are rendered by employees

Employees' Provident Fund

All employees of the Insurer are members of the Employees' Provident Fund (EPF). For defined contribution plans, the Insurer pays 10% each of the salary monthly, as contribution to the publicly administered provident fund plans namely Employee Provident Fund managed by the Employees Provident Fund Nepal on a mandatory basis and such amounts are charged as Personnel Expenses to Statement of Profit and Loss. The Insurer has no further payment obligations once the contributions have been paid.

The Insurer has been operating a provident fund contribution as defined contribution plan of its employees for the requirement under its staff's byelaws and as required under Labour Act 2074.

B. Defined Benefit Plans-Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Insurer's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods and discounting that amount to determine its present value. The calculation is performed annually by a qualified independent actuary using the projected unit credit method.

With the adoption of NAS 19 - "Employee Benefits", which became effective from 1 January 2013, the re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognized immediately in other comprehensive income. The liability recognized in the Statement of Financial Position is the present value of the defined benefit obligation less the fair value of the plan assets. The Insurer's Statement of Profit or Loss Account is charged with the interest cost, current service cost, past service cost, benefits paid adjusted with the actuarial gain/loss recognized for the period.

Under the Labor Act, 2074, the liability to an employee arises since the employee commence to service. The obligation is not externally funded.

3.17 Foreign Currency Translation

The financial statements are presented in Nepalese Rupees (NPR).

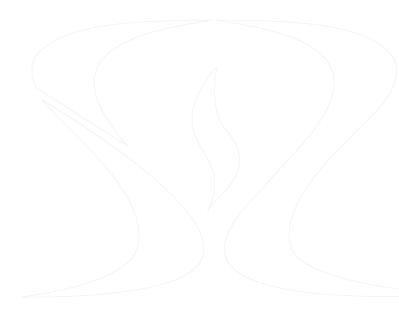

Transactions in foreign currencies are initially recorded at the functional currency rate of exchanges ruling at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange at the statement of financial position date. Foreign exchange gains and losses resulting from the settlement of such transactions, and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of profit or loss.

Non-monetary assets and liabilities are translated at historical exchange rates if held at historical cost, or year end exchange rates if held at fair value, and the resulting foreign exchange gains and losses are recognized in either the statement of profit or loss or shareholders' equity depending on the treatment of the gain or loss on the assets or liability.

3.18 Earning Per Shares

The earning per share is the amount of money each share of stock would receive if all of the profits were distributed to the outstanding shares at the end of the year. The Insurer measures earning per share by dividing earning attributable to the equity shareholders for the period by the number of ordinary shares outstanding during the year. The number of shares is taken as the weighted average number of shares for the relevant period as required by NAS 33 Earning per Share. The earnings attributable to the ordinary equity holders consists of the earnings of the Insurer after deduction of all expenses and tax expenses.

Fully diluted shares are the total number of shares that would be outstanding if all the possible sources of conversion, like convertible bonds and stock options are converted. The Insurer has not issue any potentially convertible equity instrument hence Earning per Share and Diluted Earnings Per Share are equal.

4.27 Earning Per Shares

Basic earnings per share (EPS) amount are calculated by dividing the net profit attributable to shareholders by weighted average number of shares outstanding at the end of the year.

Diluted EPS amounts are calculated by dividing the profit attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year, plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

The basic earning per share of the company during 2017/18 is Rs 6.32 Since, no other instrument is issued by the company except common share so, diluted earning per share is also equal to basic earning per share i.e. Rs. 6.32.

5 Disclosures and Additional Information

5.1 Insurance Contract

Insurance Contracts are defined as those containing significant insurance risk if, and only if, an insured event could cause an insurer to pay significant additional benefits in any scenario, excluding scenario that lack commercial substance, at the inception of the contract. Such contracts remain insurance contracts until all rights and obligations are extinguished or expires. Contract can be reclassified to insurance contracts after inception if insurance risk becomes significant. In accordance with NFRS 4, Insurance Contracts, the Insurer has continued to apply the accounting policies it applied in accordance with pre-changeover GAAP.

Insurance Contracts are defined as those containing significant insurance risk if, and only if, an insured events could cause an insurer to pay significant additional benefits in any scenario, excluding scenario that lack commercial substance, at the inception of the contract. Such contracts remain insurance contracts until all rights and obligations are extinguished or expires. Contract can be reclassified to insurance contracts after inception if insurance risk becomes significant.

For all the insurance contracts, premiums are recognized as revenue considering the surrender factors (earned premiums) proportionally over the policy year of coverage. The portion of premium received on in-force contracts that relates to unexpired risks at the statement of financial position date is reported as the unearned premium liability. Premiums are shown before deduction of commission and are gross of any taxes or duties on premiums.

Liability adequacy test

At each reporting date the Insurer performs a liability adequacy test on its insurance liabilities less deferred policy acquisition expenses to ensure the carrying value is adequate, using current Estimates of future cash flows, taking into account the relevant investment return. If that Assessment shows that the carrying amount of the liabilities is inadequate, any deficiency is recognized as an expense to the income statement initially by writing off the deferred policy Acquisition expense and subsequently by recognizing an additional claims liability for claims provisions.

5.2 Risk Management Framework

The Board of Directors has overall responsibility for the establishment and oversight of the Insurer's risk management structure.

The Insurer has as per the requirement of Section 14 of Corporate Governance Directive, 2075 issued by Insurance Board has formed Investment, Risk Management and Solvency Committee and also an Audit Committee to review the risk management policies and processes. The committees also oversees how management monitors compliance with risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks the Insurer face. These committees report regularly to the Board of Directors on their activities.

The overriding objectives of the Insurer's risk management framework is to enhance its capital base through competitive earnings growth and to protect capital against inherent business risks. This means the Insurer accept certain levels of risk in order to generate returns and the Insurer manages the level of risk assumed through enterprise wide risk management policies and procedures. Identified risks are assessed as to their potential financial impact and as to their likelihood of occurrence.

5.2.1 Insurance Risk

The risk under any insurance contract is the possibility that the insured events occurred and the uncertainty that the Insurer will have sufficient assets to satisfy the benefits payable under the contract. By the nature of insurance contract, this risk is random and therefore unpredictable. The principal risk the Insurer faces under such contract is that the actual claims and benefits payments exceed the carrying amount of insurance liabilities. This is influenced by the frequency of claims, severity of claims, actual

benefits paid are greater than originally estimated, and subsequent development of long term claim. The Insurer has developed its insurance underwriting strategy to diversify the type of insurance risks accepted and within each of these categories to achieve a sufficiently large proportion of risks to reduce the variability of the expected outcome. Factors that aggravate insurance risk includes lack of risk diversification in terms of type and amount of risk, geographical location and type of industry covered.

Frequency

The frequency and severity of claims can be affected by several factors. The most significant are the increasing level of awards for the damages suffered as a result of exposures to various causes of loss events. The Insurer's underwriting strategy is intended to ensure that risk underwritten are well diversified in terms of the type of risk and the level of insured benefits. The Insurer manages this risk through the review of its underwriting and reinsurance program on an annual basis in order to ensure that there is adequate mitigation against this risk.

Concentration of Insurance Risk

The following table discloses the concentration of insurance risk by the class of business in which the contract holder operates and included in terms of the policy.

5.2.2 Credit Risk

The credit risk is the risk of financial loss to the Insurer if a customer or counterparty to a financial instruments fails to meet its contractual obligations, and arises principally from the Insurer's receivables from customers and reinsurers, investment securities and cash and cash equivalent. The concentration of credit risk is also monitored to minimize the Insurer's exposure to significant losses from reinsurer insolvency. The assets of the Insurer that are exposed to credit risk and the measure for mitigation is as mentioned below:

The credit risk associated with cash equivalents is mitigated by the facts that investment and cash transactions are limited to high credit financial institutions. The Insurer has policies that limit the amount of credit exposures to any one financial institutions.

The Insurer has no significant concentration of credit risk on its investments. The Insurer minimizes its credit risk by limiting its investment primarily between counterparties to Government and financial institutions. All investments are held with well-established financial institutions.

Concentration of Credit Risk

The credit risk of the Insurer has been presented below:

5.2.3 Liquidity Risk

Liquidity Risk is the risk that the Insurer will not be able to meet its financial obligations as they fall due. The Insurer's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions without incurring unacceptable losses or risking damage to the Insurer's reputation. In respect of catastrophic events, the Insurer is exposed to liquidity risk associated with the timing difference between cash flows and expected reinsurance recoveries to meet its insurance liability obligations.

The Insurer's liquidity management process as carried out within the Insurer is monitored by the accounts department and includes:

- Cash flows is monitored weekly through cash summary reports.
- Maintaining the portfolio of highly marketable and diverse assets that can easily be liquidated as protection against any unforeseen interruption to cash flows
- Optimize cash returns on investment and
- Monitoring statement of financial position liquidity ratios against internal and regulatory requirements.

The table summarizing the liquidity risk has been presented below:

5.2.4 Market Risk

Market risk is the risk that changes in market prices, such as foreign exchanges rates, interest rates and equity prices will affect the Insurer's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return of risk.

Market risk are evaluated on an ongoing basis by the Board of Directors through discussions and the review of market developments and trends.

Management also proactively anticipates likely development in their markets via monitoring or regional and international trends via industry publications. Based on the review performed, there has been no changes to the Insurer's exposures to market risks or the manner in which it manages the risk.

a. Interest Rate Risk

Interest Rate Risk is the risk that the fair value or future cash flows of a financial instruments will fluctuate because of changes in the market interest rate. The Insurer's exposure to interest rate risk is solely to the extent that interest-earnings assets mature or re-price at different times or in differing amounts. The Insurer addresses this risk by concentrating its investments on risk-free investments such as fixed interest rate deposit.

b. Foreign Currency Risk

Foreign currency risk is the risk that the value of a financial instrument will fluctuate due to

changes in foreign exchange rates. The Insurer's exposures to foreign currency risk results from the settlement of the amount to the reinsurer and the movement in the exchange rate of Nepalese currency with respective foreign currency.

c. Equity Price Risk

Price Risk is the risk that the value of the financial instruments will fluctuate as a result of changes in market prices, whether caused by factors specific to any individual investment, its issuer or all factors affecting all financial instruments traded in the market. The Insurer is not exposed to significant price risk as it does not have any equity securities at year end.

5.2.5 Operational risk

Operational risk is the risk of direct or indirect loss arising from a variety of causes associated with the Insurer's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate governance. Operational risks arise from all of the Insurer's operations.

The Insurer's objective is to manage operational risks as to balance the avoidance of financial losses and damages to the Insurer's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned with senior management. This responsibility is supported by the development of overall standards for the management of operational risks in the following areas:

- Requirement for appropriate segregation of duties, including authorization of transactions;
- Requirements for the reconciliation and monitoring of transactions;
- Compliance with regulatory and other legal requirements;
- Documentation of controls and procedures;
- Development of Contingency plans;
- Training and professional development of staff; and
- Ethical and business standards

5.3 Capital Management

The primary objective of the Insurer's risk and financial management framework is to protect the Insurer's shareholders from events that hinder the sustainable achievement of financial performance objectives, including failing to exploit opportunities. Key Management recognizes the critical importance of having efficient and effective risk management systems in place.

The Insurer has established the following capital management objectives, policies and approach to managing the risks that affect its capital position:

- To maintain the required level of stability of the Insurer thereby providing a degree of security to policy holders;
- To allocate capital efficiently and support the development of business by ensuring that returns on capital employed meet the requirements of its capital providers and of its shareholders;
- To retain financial flexibility by maintaining strong liquidity and access to a range of capital markets;
- To provide an adequate return to shareholders by pricing insurance and investment contracts with the level of risk; and
- To maintain strong credit ratings and healthy capital ratios in order to support its business objectives and maximize shareholder's value.

Externally imposed capital requirements are set by the Insurance Board. These requirements are put in place to ensure sufficient solvency margins.

The Insurer is registered under Insurance Act, 2048 as required by the Act and has not met the required minimum paid up capital as the Insurer has not yet made the public issues of its shares.

Solvency ratios are established on the basis of risk assessment. The Insurer is required to meet minimum margin of solvency. The insolvency is the inability of the Insurer to pay its debt if , at any time, the value of its admissible assets does not exceeds its liabilities by such amount as the insurance Board may prescribed. As on 16 July, 2018, the Insurer has lower than the minimum margin of solvency required under the Act. The required solvency margin as per the Beema Samiti guidelines is 1.5 to fall under

routine action categories while Insurer has the solvency margin of 1.117 which fall under greater supervision categories.

The Insurer seeks to optimize the structure and sources of capital to ensure that it consistently maximizes returns to the shareholders and policyholders.

The Insurer's approach to managing capital involves managing assets, liabilities and risks in a coordinated way, assessing shortfall between reported and required capital levels on a regular basis and taking appropriate actions to influence the capital position of the Insurer in the light of changes in economic conditions and risk characteristics. An important aspects of the Insurer's overall capital management process is the setting of target risk adjusted rates of return, which are aligned to performance objectives and ensure that the Insurer is focused on the creation of value for shareholders.

5.4 Contingent Assets and Commitment

In the normal course of business, the Insurer is not involved in any legal proceedings incidental to its operations. There are no outstanding litigations matters for which the outcome is uncertain at the reporting date.

5.5 Events after Reporting Period

Management has evaluated the need for disclosures and adjustments resulting from subsequent events upto the date the financial statements are authorized for issue. There were no subsequent events requiring disclosures and/or adjustments.

5.6 Fair value hierarchy

Assets and liabilities carried at fair value or for which fair values are disclosed have been classified into three levels according to the observability of the significant inputs used to determine the fair values. Changes in the observability of significant valuation inputs during the reporting period may results in a transfer of assets and liabilities within the fair value hierarchy. The Insurer recognizes transfer between levels of the fair value hierarchy when there is significant change in either its principal market or the level of observability of the inputs to the valuation techniques as at the end of the reporting period.

Level 1: Fair value measurements are those derived from unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Valuations are those with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued models where all significant inputs are observable.

Level 3: Portfolis are those where at least one input which could have a significant effect on the instrument's valuations, is not based on observable market data.

5.9 Liability Adequacy Test

NFRS 4 requires the insurance company to determine their business liabilities using the actuaries.

A Liability Adequacy Test (LAT) was performed by Mr. A.P PEETHAMBARAN, a Fellow of Institute of Actuaries of India (FIAI), a practicing actuary as at 16th July, 2018 as required by NFRS 4- Insurance contracts in order to assess the adequacy of the carrying amount of the provision for unexpired risk and the life insurance fund. The valuation is based on internationally accepted actuarial methods. According to the report issued by Mr. A.P.PEETHAMBARAN, the liability carried by the company was adequate.

The company began its operation in 2017 and therefore the adequacy of technical provisions is tested for 2017-18 only.

The assumptions used by actuaries for the calculation of liabilities of the company as required by NFRS 4 are as follows:

1. Accounting Policy:

The gross premium method has been used in order to arrived at the mathematical reserves under each contract.

2. Cash Flow:

The future cash flow considered includes premium receivables, commission payable, expected future expenses and all types of benefit payouts.

3. Valuation methods and Assumptions:

For valuation of all the policies, excepts term assurance plan, 105% of Nepali Assured Lives Mortality table 2009 has been considered whereas for valuation of term assurance policies 130% of Nepali Assured Lives Mortality Table 2009 has been considered.

6% Interest rate has been taken. Also 6% per annum of office yearly premium for regular and limited premium in force policies, 0.5% per annum of office yearly premium for paid-up policies, 0.05% per annum of office yearly premium for endowment cum whole life policies beyond Endowment term and 0.05% of the single premium for single premium has been considered as expenses.

Inflation rate at 4% has been considered.

4. Discounting Policy:

The future cash flows(premium receivables, commission payable, expected future expenses and all type of benefit payouts) has been discounted at an interest rate of 6% and inflation rate of 4%.

5. Aggregate provisions

The valuator has considered reserve for extra mortality, rider benefits equal to one year's extra premium. The valuation has not incorpoated lapsed policies since they are all totally lapsed without acquiring any values. The company portfolio does not have any policies offering options or does not have any guarantee. No policy is issued in foreign currency.

अनुसूची : २८

१. वित्तीय विवरण तयारीका आधारहरु :

यस कम्पनीको वित्तीय विवरण बीमा ऐन २०४९, बीमा नियमावली २०४९ र बीमा समितिले जारी गरेको मिति २०६७०५।२१ को परिमार्जित निर्देशिका, प्रचलित कानून तथा लेखामान, सामान्यतः लेखाको सर्वमान्य सिद्धान्तको अधिनमा रिह ऐतिहासिक मृत्य अवधारणा तथा प्रोदभावी आधारमा तयार गरिएको छ ।

२. स्थिर सम्पत्ति लेखाङ्गन नीति :

स्थिर सम्पत्तिलाई ऐतिहासिक लागत अवधारणा (Historical Cost Concept) को आधारमा लेखाङ्गन गर्ने नीति अवलम्बन गरिएको छ ।

३. हास कट्टी नीति :

स्थिर सम्पत्तीहरूको ह्रास कट्टी सम्बन्धित सम्पत्तिहरूको उपयोगिताको (useful life) आधारमा व्यवस्थापनले आयू निर्धारण गरी समदरमा (Straight Line Basis) ह्रास कट्टी गणना गर्ने नीति लिएको छ । ह्रास कट्टीको गणना गर्न Useful life निम्नानुसार लिइएको छ । कम्पनीले आ.ब २०७४/७५ देखि ह्रास कट्टी नीति घट्दो प्रणालीबाट समदर प्रणालीमा परिवर्तन गरेको छ । कम्पनीले यदि घट्दो प्रणाली ह्रास कट्टी नीति अवलम्बन गरेको भए कम्पनीको आ.ब २०७४/७५ जम्मा ह्रास कट्टी रकम रु.२,७१३,६७३.५५ ले बढी हुन गई नाफा सोही रकमले कम हुने थियो ।

ऋ.सं.	सम्पत्ति समूह	समय अवधि
٩	अफिस फर्निचर	५ वर्ष
२	फर्निचर तथा फिटिङ्व	५ वर्ष
n	कम्प्यूटर उपकरण	५ वर्ष
8	सवारी साधन	५ वर्ष
x	सफ्टवेयर	३ वर्ष
Ę	अन्य अदृश्य सम्पत्ति	५ वर्ष

४. पूँजीकृत नगरिने सम्पत्तिहरु सम्बन्धी लेखाङ्कन नीति :

कम्पनीले रु. ५०००/- सम्म मुल्य पर्ने सामानहरु पूँजीकृत प्रकृतीको भए पिन प्रकृति हेरी खरिद भएकै वर्षमा खर्च लेख्ने निति अवलम्बन गरिएको छ । तर फर्निचर तथा कार्यालय उपकरणहरुमा सो भन्दा कम मुल्यको भए तापिन अवस्था हेरी पूँजीकृत गरिएको छ ।

५. आयकर व्यवस्था तथा बाँडफाँड नीति :

चालु आयकर : आयकर ऐन २०५८ र आयकर नियमावली २०५९ बमोजिम आयकर गणना गरि बाँडफाँड सम्बन्धमा बीमा ऐन २०४९, नियमावली २०४९ र वीमा समितिबाट जारी निर्देशिकाको आधारमा प्रत्येक किसिमको बीमाको भार र नाफा नोक्सान हिसाबको भारको आधारमा बाँडफाँड गर्ने नीति अबलम्बन गरिएको छ ।

स्थगन कर : स्थगन कर (Deferred Tax) को गणना नेपाल लेखामान १२ अनुसार गरिएको छ ।

६. लगानी लेखाङ्गन नीति :

(क) सरकारी बचतपत्र / ऋणपत्रमा लगानी लेखाङ्कन नीति :

- (अ) नेपाल सरकारको बचतपत्र वा ऋणपत्र वा नेपाल सरकारको जमानत प्राप्त ऋणपत्रमा गरिएको लगानीलाई अङ्कित म्ल्य (Face Value) वा परल म्ल्य मध्ये ज्न घटि हन्छ सोहि म्ल्यमा देखाउने नीति अवलम्बन गरिएको छ ।
- (आ) खण्ड (१) मा उल्लेख गरिए अनुसारको लगानीको अङ्कित मुल्य (Face Value) भन्दा परल मुल्य वढी भएमा त्यस्तो बढी रकमलाई (Deferred Expenditure) को रुपमा लेखाङ्गन गरी सो खर्च लाई त्यस्तो लगानीको अविधि भित्र समान्पातिक आधारमा (Prorata Basis)मा अपलेखन गर्ने नीति लिइएको छ ।

- (इ) खण्ड (१) मा उल्लेख गरिए बमोजिम गरिएको लगानीको अङ्कित मुल्य (FaceValue) भन्दा परल मुल्य कम भएमा त्यस्तो बढी रकमलाई लगानीको अवधि भित्र समानुपातिक आधारमा (Prorata Basis) लगानी (खरिदमा) नाफा लेखाङ्कन गर्ने नीति लिइएको छ ।
- (ई) खण्ड (१) बमोजिम बचत पत्र वा ऋणपत्रको लेखाङ्ककन गरिएको मुल्य भन्दा बजार मुल्य कम हुन गएमा त्यस्तो फरक रकमको बराबर व्यवस्था (Provision) गर्ने नीति लिइएको छ ।

(ख) बैंक / वित्तीय संस्थाको मुद्दती निक्षेपमा लगानी लेखाङ्कन नीति :

बैंक / वित्तीय संस्थाको मुद्दती निक्षेप वा नागरिक लगानी कोषको लगानी योजनाहरुमा गरीएको लगानीलाई सावाँ रकममा देखाइने छ । तर त्यस्तो लगानीको म्याद समाप्ति पछि कुनै कारणवस तत्काल फिर्ता हुने अवस्था श्रृजना नभएमा त्यस्तो लगानी बराबरको जोखिम व्यवस्था (Provision) गर्ने नीति लिइएको छ ।

(ग) पब्लिक लिमिटेड कम्पनीको शेयर लगानीमा लेखाङ्कन नीति :

- (अ) पब्लिक लिमिटेड कम्पनीको शेयरमा गरिएको लगानीलाई परल मूल्य वा बजार मूल्य जुन घटी छ सोहि मूल्यमा देखाउने र परल मृल्य बजार मृल्य भन्दा बिंढ भएमा सो बराबरको जोखिम व्यवस्था गर्ने नीति लिईएको छ ।
- (आ) पब्लिक लिमिटेड कम्पनीको संस्थापक शेयरमा लगानी गरिएको शेयर प्रचलित कानुन बमोजिम धितोपत्र बजारमा सूचिकृत नभएमा त्यस्तो कम्पनीले कारोवार गर्ने ईजाजत पत्र पाएको मितिले तिन वर्षसम्म त्यस्तो लगानीलाई परल मुल्यमा देखाई सो अवधि पश्चात सोहि बराबरको रकम व्यवस्था (Provision) गर्ने नीति लिईएको छ ।
- (इ) यो व्यवस्था अनुसार लगानी गरिएको शेयर प्रचलित कानून बमोजिम धितोपत्र बजारको सुचीबाट हटेमा (Being delisted) सो लगानी बराबरको रकमको ब्यवस्था (Provision) गर्ने नीति लिइएको छ ।

७. सटही घटबढ समायोजन नीति

कम्पनीले विदेशी मुद्रालाई प्राप्त मितिको विनिमय दरमा लेखाङ्कन गर्ने नीति लिइएको छ । साथै वर्षको अन्त्यमा भएको विदेशी मुद्राको मौज्दातलाई सो दिनको विनिमय दरको आधारमा फरक पर्न जाने रकमलाई विनिमय नाफा नोक्सान हिसाबमा लेखाङ्कन गर्ने नीति लिइएको छ ।

द. बीमाशुल्क आम्दानी लेखाङ्कन नीतिः

- (क) कम्पनीले नगद प्राप्तिको आधारमा बीमाशुल्क आम्दानी बाँध्ने नीति लिइएको छ । तर नगद प्राप्ति मिति भन्दा बीमाशुल्क भुक्तानी गर्नु पर्ने मिति पछि भएमा पछिल्लो मितिमा बीमाशुल्क आम्दानी बाँध्ने नीति लिईएको छ ।
- (ख) बैदेशिक म्यादी बीमा अन्तर्गत प्राप्त एकल बीमाशुल्कलाई सोहि वर्ष आम्दानी जनाउने र बीमाङ्गीबाट दायित्व निर्धारण गराई सो बरावर व्यवस्था गर्ने नीति लिइएको छ ।

९. पुनर्बीमा कमिशन आम्दानी लेखाङ्कन नीति

पुनर्बीमकबाट प्राप्त किमशनलाई नगद प्राप्त भए पश्चात् अथवा पुर्नर्बीमक बाट लिखित समर्थन प्राप्त भए पश्चात् आम्दानी लेखाङ्गन गर्ने नीति लिइएको छ ।

१०. अन्य आय लेखाङ्गन तथा बाँडफाँड नीतिः

कर्मचारी कर्जा, अभिकर्ता कर्जाबाट आय तथा अन्य शीर्षकबाट भएको आय लेखाङ्गन गर्दा बीमा सिमितिको निर्देशन १३ बमोजिम लेखाङ्गन तथा बाँडफाँड गरिने नीति अवलम्बन गरिएको छ ।

११. कर्जा लेखाङ्कन नीति :

कम्पनीले प्रचलित कानून बमोजिम कर्जा प्रदान गर्दा त्यस्तो कर्जा असुली हुने पर्याप्त आधार खडा गरी गर्ने छ, साथै सो कर्जा रकमलाई सावाँ रकममा लेखाङ्कन गर्ने नीति लिइएको छ। माथि उल्लेख गरिए बमोजिम कर्जा लगातार तीन महिना वा सो भन्दा बढी अविध नाघेमा सो कर्जालाई निष्कृय कर्जा मानिने छ र त्यस्तो निष्कृय कर्जालाई बीमालेखको धितोमा प्रदान गरिएको कर्जा बाहेकको अवस्थामा कर्जा बराबरको रकमलाई कर्जा नोक्सानीको व्यवस्था गरिने नीति अवलम्बन गरिएको छ।

१२. व्यवस्थापन खर्च बाँडफाँड नीति :

ब्यवस्थापन खर्च बाँडफाँड गर्दा कूल ब्यवस्थापन खर्चको ९०% रकमलाई प्रत्येक किसिमको बीमाको आय व्यय हिसावमा बीमाको भारको आधारमा लेखाङ्गन गरिने छ र बाँकी रहेको १० प्रतिशत रकमलाई नाफा नोक्सान हिसावमा लेखाङ्गन गर्ने नीति लिईएको छ । साथै कुल बिमा शुल्कको ३०% भन्दा बिंढ व्यवस्थापन खर्च भएको अवस्थामा बिंढ रकम नाफा नोक्सान हिसावमा पठाई बाकी रकम माथि उल्लेखित व्यवस्था अनुसार बाँडफाँड गरिएको छ ।

१३. बीमा दावी भुक्तानी खर्च लेखाङ्कन नीतिः

कम्पनीले दावीको लागत गणना गर्दा बीमालेख बमोजिम भुक्तानी गर्नु पर्ने रकम तथा सो दावी फछ्यौंटको लागि कम्पनीका पदाधिकारी र कर्मचारीहरुले गरेको काम र अन्य खर्च बाहेक आवश्यक परामर्श तथा अनुसन्धान खर्च समेत समावेश गरि खर्च लेखाङ्कन गर्ने नीति लिइएकोछ।

१४. बीमा दावी बापत दायित्व व्यवस्था लेखाङ्कन नीतिः

बीमा दावी वापतको फछ्यौंट हुन बाँकी मृत्यु दावी, अविध समाप्ति दावी, आंशिक अविध समाप्ती दावी तथा समर्पण मुल्य दावी वापत बीमा नियमावली, २०४९ दफा १५ (घ) को प्रावधान अन्तर्गत कुल दावी रकमको ११५ प्रतिशत रकम व्यवस्था गर्ने नीति लिईएको छ ।

१५. बीमा व्यवसायमा बचत बाँडफाँड नीति :

कम्पनीको सम्पत्ति तथा दायित्वको बीमाङ्गीय मूल्याङ्गन नभएसम्म सम्बन्धित बीमाको बीमालेखबाट भएको आम्दानीलाई सोहि बीमा कोषमा रकमान्तर गर्ने नीति लिइएको छ । साथै नोक्सानी भएमा नाफा नोक्सान हिसाबमा सार्ने नीति लिइएको छ । कम्पनीको बीमाङ्गीय मूल्याङ्गन भएको कारण बीमाङ्गीय मूल्याङ्गनमा उल्लेख भए बमोजिमको रकम बीमा कोषमा रकमान्तर गरिएको छ ।

तर बैदेशिक म्यादी जीवन बीमाको हकमा असमाप्त जोखिम वापत बिमाङ्गीको मूल्याङ्गन प्रतिवेदन प्राप्त भएको अवस्थामा सो बमोजिम व्यवस्था गरी बाँकी रकमलाई नाफा नोक्सान हिसाबमा लाने नीति लिईएको छ ।

१६ं कर्मचारी उपदान, विदा तथा अन्य सुविधा बापत व्यवस्था नीति :

कर्मचारी उपदान, विदा तथा अन्य सुविधा बापत भुक्तानी गनुपर्ने दायित्व प्रोदभावि (Accrual) आधारमा लेखाङ्कन गर्ने नीति लिएको छ ।

१७. शंकास्पद आसामी व्यवस्था नीति :

कम्पनीले आसामीको Ageing अनुसार व्यवस्थापनले नउठ्ने भिन व्यवस्था (Provision) गर्न आवश्यक ठानेमा संचालक समितिबाट पारित गराई व्यवस्था (Provision) गर्ने नीति लिइएको छ ।

१८. अपलेखन खर्च लेखाङ्कन नीति :

कम्पनीको प्रारम्भिक खर्चलाई कम्पनी संचालनमा आएको सोही वर्षमा नै खर्च लेखाङ्कन गर्ने नीति लिएको छ ।

१९. अन्य नीतिहरु :

(क) असमाप्त जोखिमको लागि व्यवस्था नीति :

- (अ) कम्पनीले बार्षिक वा सो भन्दा कम अवधिको बीमा शुल्क दर तोकिएको र बीमा अवधि समाप्ति वापत दावी भुक्तानी गर्नु नपर्ने किसिमको बीमाको बीमाङ्गीय मूल्याङ्गन भई आएको अवस्थामा सो वरावर व्यवस्था गर्ने र बीमाङ्गीय मूल्याङ्गन नभएको अवस्थामा असमाप्त जोखिम वापत खूद बीमा शुल्कको ५०% रकम व्यवस्था गर्ने र उक्त रकमलाई पछिल्लो आर्थिक वर्षमा आम्दानी लेखाङ्गन गर्ने नीति लिईएको छ ।
- (आ) एकल बीमा शुल्क तोकिएको र बीमा अवधि समाप्ती वापत दावी भुक्तानी गर्नु नपर्ने किसिमको बीमाको रकमलाई बीमा अवधिको समान्पातिक हुनेगरी असमाप्त जोखिम वापत रकम व्यवस्था गर्ने निति लिइएको छ ।
- (इ) बीमाङ्कीबाट दायित्व निर्धारण नभएको अवस्थामा बीमा अवधि समाप्ती वापतदावी भुक्तानी गर्नु नपर्ने किसिमको बीमा ब्यवसायको आय व्यय हिसाबबाट हुन आएको बचतलाई जीवन बीमा कोषमा सार्ने नीति लिइएको छ ।

(ख) प्रति शेयर आम्दानी (नेपाल वित्तिय प्रतिवेदनमान ३३)

आधारभूत प्रति शेयर आम्दानी निकाल्दा कुनै तोकिएको अवधिमा शेयरधनीहरूलाई प्राप्त हुने कुल नाफा वा नोक्सानलाई सो अवधिमा विद्यमान कुल अन्तिम शेयर संख्याले भाग गरिएको हुन्छ ।

(ग) तुलनात्मक जानकारी

लेखा नीति वा आधारभूत गल्तीको कारणबाट परिवर्तन भएको शीर्षकमा सापेक्षिक जानकारी पून वर्गिकरण गरी उल्लेख गरिएको छ ।

(घ) व्यवसाय खण्ड विवरण (नेपाल वित्तिय प्रतिवेदनमान ८)

कम्पनीले प्रयोजनमा ल्याएको विभिन्न किसिमको सेवा र शर्त सिहतको बीमा योजनालाई विभिन्न उपयुक्त व्यवसाय खण्डमा (Business Segment) राखी सोही अनुसार अलग अलग आय व्यय हिसाव तयार गरिएको छ ।
